CHKS live – Release Document

Release date: 27 /03/2020

Improvements

Scorecard Column Options - Confidence limits
Additional scorecard column options for upper and lower confidence limits have been added.

Reports module – segment labelling
As users create each segment on a page, they now have the option to edit the segment label.

Reports module – user guide
Reports Module User Guide added to online help text

Filter for missing value
It is now possible to filter for missing / blank values for procedure and diagnosis and all generic filters. For example, this allows users to exclude activity based on missing values in fields, such as, excluding activity with a blank primary diagnosis when reviewing risk adjusted indicators.

Short Stay Emergency Care Module - Additional Show by and Filters Duration to Departure (hourly bands and minutes)
Two additional 'show by' and 'filter' options have been added to the short Stay Emergency Care module for duration to departure (hourly bands) and Duration to Departure (Minutes).

Short Stay Emergency Care Module - The axes options filtered based on indicator
Update to Short Stay Emergency Care module to limit axis options on the cross tab to those relevant to the selected indicator.

Update HES small number suppression from 1-5 to 1-7
Small number has been updated - All counts that are greater than 0 and less than or equal to 7 will be replaced with the special character '*', previously greater than 0 and less than or equal to 5 supressed. Applied throughout iCompare and MI.

Show by and Filter fields do not have the same name
Several 'show by' and 'filter' descriptions have been updated for consistency.

Known issues and bug fixes
A number of known issues and bugs have been resolved in this release including:
- iCompare Scorecard - sparkline export removed, %Change column added to PDF report, show by month sort order corrected
- BADS – a number of minor bug fixes
- Day case overstays – orientation corrected
- SHMI – export and filter issues resolved
- Filter for 'Must NOT be between' – bug fixed
- iCommissioner – a number of fixes/updates to available options and UI issues.
- User accounts – Issues with e-mail notification around locked accounts resolved.

The next planned release is scheduled for Q2 2020. This release is subject to change due to resource allocation.
